

Active governance

As an employer offering a Defined Contribution pension plan, securing optimum outcomes for members whilst achieving your corporate objectives will be at the forefront of your mind.

Active governance forms the foundation of a well-managed pensions arrangement. With constant legislative and regulatory updates, keeping ahead of the game has never been more important.

At Premier we will ensure that the active governance process keeps your scheme up-to-date and compliant at all times. We will identify risks and rectify the problems that they cause to ensure value for money for you and your employees. We will:

- Engage with employees
- Ensure legislative and regulatory compliance
- Offer best terms and conditions
- Provide a seamless service
- Provide independent, relevant advice

“Active governance is about working with your Governance Committee to make a real difference to your employees’ future.”

Martin Thompson, Director

Employee Engagement

Our unique approach to active governance focuses on the areas that really matter: administration, investment, charges and employee engagement. We are proactive in anticipating the effects of legislative changes and market trends to ensure that your pension provision is on-track and compliant.

Key takeaways

- Set objectives and measure progress against achieving these
- Review current processes to ensure cost effectiveness and time efficiencies
- Ensure legislative and regulatory compliance
- Engage with your employees on a meaningful level
- Focus on administration, investment and charges to ensure the best possible outcomes.

When we established in 2003, we set ourselves a mighty ambition to transform the quality of the industry, and that’s exactly what we have done. As a client we’ll give you the support to respond to the world ahead, not the one we’re leaving behind.
